SUMMARY

National Level Silver Medalist and Computer Science student at DYPSEM specializing in Cybersecurity and Data Science. Proven track record in developing automated systems, from IoT-based parking solutions to full-stack governance portals. Committed to building secure, scalable database architectures and high-performance software.

EDUCATION

D.Y. Patil School of Engineering & Management (DYPSEM), Kolhapur

- Bachelor of Technology in Computer Science and Engineering.
- **Honors:** Cyber Security | **Minor:** Data Science.
- *Expected Graduation: Aug 2027*.

Vivekanand Jr. College, Kolhapur

- HSC in Computer Science | Passed with First Class.

SKILLS

- **Programming:** Java, Python, C, JavaScript, HTML5, CSS3**.**
- **Frameworks/Libraries:** React, Scikit-learn, Pandas, Firebase**.**
- **Databases**: MySQL, Firebase, Schema Design, Data Integrity**.**
- **Specialized:** IoT (Arduino, ESP32-CAM), Cybersecurity, AI Foundations

PROJECTS

Disease Prediction System | Python & Machine Learning

- Engineered a diagnostic classification tool using Scikit-learn and Pandas to process clinical biomarker datasets.
- Automated early-stage risk assessment for various diseases, improving the speed of preliminary diagnostic reporting.

E-Grampanchayat Portal | Full-Stack Development

- Architected a digital governance platform utilizing MySQL and JavaScript to digitize village-level record management.
- Streamlined administrative workflows by automating the generation of tax certificates and record retrieval processes**.**

Smart Parking System | IoT & Embedded Systems

- Designed an automated vehicle detection system by integrating Arduino UNO with ESP32-CAM hardware.
- Implemented real-time slot monitoring through IR Sensors, reducing vehicle congestion and improving parking efficiency.

ACHIVEMENTS

AI Intern | TechSaksham (Microsoft & SAP CSR Initiative)

- Completed an intensive AI training program focused on transformative learning and foundational AI concepts.
- Collaborated on projects involving advanced data analysis and machine learning foundations.

Student Ambassador & Animator | Vyomika Space Academy

- Represented the academy as a student leader while contributing technical animation assets for space science education.

KEY ACHIEVEMENTS

- **National Silver Medalist:** India Skills National Level Competition (2025-26).
- **Rank 2:** Internal Smart India Hackathon (SIH) – DYPSEM (2025).
- **State Level Gold Medalist:** Awarded ₹25,000 for excellence in Landscape Gardening at the India Skills State level.

EXPERIENCE

AI Intern | TechSaksham (Microsoft & SAP CSR Initiative)

- Completed intensive training on transformative AI learning and foundational concepts.

CERTIFICATES & AWARDS

- **AI Foundations:** Microsoft/AICTE (2024).
- **OOP Fundamentals:** NPTEL (2025).
- **IoT with Arduino & ESP32:** DY Patil SEM (2025).
- **JavaScript Intermediate:** HackerRank (2025).
- **AI Transformative Learning:** TechSaksham (2024)
- **Student Ambassador**Vyomika Space Academy (2024)
- **WordPress Guided Project:** Coursera (2025)
- **Ideathon Appreciation Social Shuffle:** IHO SGU (2025)
- **2nd Rank in Internal Hackathon:** SIH DYPSEM (2025)
